

KIT-masitinib: a reliable baseline, not an isoform comparison

We report what the experimental structure supports—and explicitly stop where it does not.

Why no KIT-223 score is shown

unresolved kinase-insert
segment in 1T46 (690-761)

resolved

resolved

KIT-223 deletion
residue 715

A score would depend on an unvalidated rebuilt loop.
Excluding it is the scientifically correct result.
